I was in for a dental cleaning + pictures of each tooth. I was taken in as soon as I completed some paperwork. The dental hygienist was very friendly, very efficient, and quite thorough. Thanks for a pain-free dental experience, although all my appointments with Dr. Brigati and her team have been painless as well! Thank you! Carol B.

I have been a patient for about 10 to 15 years. I have had nothing but excellent service. They are so understanding of the issues that I have to deal with to use military insurance. With all of the trouble that the military insurance has been, they still are patient and just work with me. I am so grateful.

I started going to Dr. Brigati's practice on the recommendation of my former dentist from Helotes, TX. I needed to move to Ft. Worth, and trusted him to advise me on a local practice. He did not hesitate as he refereed me to the Hulen Family Dentistry. His recommendation got me to Dr. Brigati's offices. It has been 6 years now; Jessica has assembled a great team. My dental health is better than I have ever had. The ladies are caring, fun, and listen very well. If you want to benefit from great personal care....this is the place. RON

Best dentist I have ever went to. Everyone is so nice the work has been done perfect. It is a fun light hearted office but still professional. Really like the people and Dr has a very friendly chair side that is hard to find. I got two cavities filled near old fillings where the old fillings had to be drilled. I had no pain and she showed me pics so i could see the bad areas myself. She called herself to check on me the next day. Great find thanks Shelby

Every year I am asked to complete health history, medicine taken, surgeries, etc... why not furnish patient with printed copy of what is currently on file and the patient can correct accordingly. Also, it would be helpful if patient has advance notice that they will be needing to update health information and to bring information with them. Just a suggestion from long term patient and marketer.

This review is only based on time and was a one off instance. It has nothing to do with the staff, Dr. Brigati, or how I was taken care of during my appointment.

It took close to 20 minutes for me to be taken back for my cleaning. When you not only arrive early for your appointment, but must take vacation or sick time to come to a medical/dental appointment, and have to travel back to work for meetings, you want to be seen on time, within at least 5-10 minutes. And when other patients were called in immediately, who arrived after me, that just makes it worse.

I understand everyone was coming back from lunch at 1:30, or maybe in a meeting, but my time is just as important as those in the office. Maybe think about having cleanings scheduled at 1:45/2:00.

Overall I love Dr. Brigati and her staff. Never had any issues or complaints, love how they do so many things together, and been a patient for over 13years.

Dr Brigati is very skilled at filling teeth. All of the procedure is explained while she switches instruments which gives you reassurance everything will be ok. I have been seeing Dr Brigati and her staff now for almost 15 years. I have been mostly seeing her every 3 months for periodontal care. She is very thorough and, at 65, I have all my teeth and my mouth feels great. She even recommended braces, as my bite was off. The orthodontist she recommended was amazing and my bite feels better than ever one year post braces removal. Dr Brigati made me a retainer and my jaw pain is gone. I feel very confident recommending Dr. Brigati to all my friends, colleagues, and neighbors. She is concerned not only about my teeth, but my overall health and nutrition. Over the years, she has monitored my blood pressure and I have followed up with my primary care physician. Dr Brigati has helped steer me towards a healthy diet and helped me lose some weight. You could not find a more professional and compassionate dentist to care for your oral and overall health!

The thought of a cavity filling is never fun, but this experience of repairing my decayed tooth was easy-breezy! The pain was nil, and Dr. Brigati's commentary on what was coming next helped me relax through the whole procedure.

Finally, the shot to reverse the numbness was wonderful --- my cheek and lips were "awake" again in less than an hour! Thank you for everything!

I love the office, the dentist, everyone involved! My co-worker went, and loved it too! Such a wonderful place! My whole family will end up going there and anyone else I can get because this office is so wonderful! They are kind, patient with questions, and provide excellent care. I especially appreciate how much they explain everything they will do, are doing, can do. I know more about my teeth than ever before. Everyone should go here!

I am happy to say that since my mom referred me to Dr. Brigati, my dental anxiety is completely gone. I actually make my appointments 4 months apart instead of 6 months, as is recommended. I love clean teeth. My entire family loves Dr. Brigati and her staff. Dr. Brigati is competent and highly skilled, dentistry is second nature to her. Dr. Brigati is extremely professional and personable; her willingness to take time to explain procedures is very appreciated. I was fortunate to have a friend recommend Dr. Brigati over ten years ago. My experience with Hulen Family Dentistry has been better than I have ever experienced, and my dental health is so much better than it was. Whether I am having my teeth cleaned and examined or I need corrective work, everyone shows that they truly care about me. Over the years, they are like family; and I recommend Dr. Brigati to anyone who is looking for a caring, professional dental team.

I have never felt so welcomed, and at ease at a dentist office. Dr Brigati is not only thorough, she is equally knowledgeable about my lupus and other health related problems. Wow! My daughter also went the day before me and said she is the most amazing dentist she has ever been too. The office staff was just as exceptional and

professional. We are in awe and still talking about it as I am filling out this survey. I have had so many bad experiences in the past, I'm glad my son -in-law.

Most recent visit was not the best. The lady that did my cleaning continually got water all over my face and was a little rough on my cleaning. I would not want to have her clean my teeth again. I believe she was there to assist the office

Thank you for your review. We apologize for your experience that you recently had with your hygiene appointment. Our hygienist was out of town on vacation and we had a temporary hygienist fill in for her during your visit with us. We always try to request the best temporary hygienists from our local temporary agency. Kelsey, your hygienist, is back from vacation as of today and she will be your hygienist at your next appointment.

Friendly, courteous staff. They went out of their way to make sure that I 1) got my appointment scheduled 2) remembered my appointment 3) knew exactly what to expect from insurance 4) knew and understood what follow ups I would need and why and 5) helped me get the appointments scheduled right then.

I have been saying this since the first time I visited Dr. Brigati's office; it's HOME. It's like the old school sitcom "Cheers", sometimes you wanna go where everybody knows your name. The staff is very courteous, professional and friendly. She always has creative ways to help us learn more about her staff and win some fabulous prizes. She's also the only healthcare professional I visit that cares enough to send me thank you cards and rewards for the countless referrals I have made. If you are in the market for a family dentist, I reckon you mosey on down to Hulen Family Dentistry and link up with Dr. Jessica Brigati and her wonderful staff.

Service was excellent. I enjoy coming to this dental office, they are quick, knowledgeable and friendly. I haven't always had the best dental hygiene, so when i come to dental office I usually have some fear and expect the worst. But here they made me feel comfortable, yea there are some problem areas but nothing we can't handle. Instead of were going to have to rip all your teeth out.
